WEST VIRGINIAN TO MANAGE DAVIS CAMPAIGN GANGSTERS SWEAR SERIOUS CHARGE AGAINST REPUBLICANS

ADMIT EMPLOYED TO BREAK R. I. SENATORIAL FILIBUSTER

PROVIDENCE, R. I., July 18.—A sensational story was printed in the Providence News in which it is asserted that the newspaper has affidavits from a number of Boston and New York gangsters in which they confess that they were hired by Republicans to break the recent filibuster in the state legislature. The gangsters, according to the story, threw bundles of chemically treated gauze and paper in the senate chamber, forcing the senators to flee. One of the men who hired them was Wm. C. Pelky, chairman of the republican state central committee, he gangsters declared.

Boy Returns Home After His Funeral

ATLANTA, Ga., July 18.—John W. Hinton, 15 years old, who was "buried" at Bogart late yesterday was at home with his parents here again today.

The remains of a youth found on a railroad track near Cartersville were identified by Mr. and Mrs. William H. Hinton as their son who had left home a few days previously. Plans were made for the funeral and relatives and school mates of young Hinton viewed the body and confirmed the identity. Insurance adjusters came and arranged claims and adjustment papers.

Then the body was taken to Bogart and an impressive funeral service held.

As the grief stricken father and mother and other mourners were boarding a train to return to Atlanta young Hinton rushed up. He had been visiting with a distant relative near Bogart and his whereabouts learned by a cousin who went for him.

Authorities now believe the body buried as that of young Hinton was that of Collis Harris, 16, of Blakely.

Americans Win First In Swimming Race

PARIS, July 18.—The United States 800-meter relay swimming team, composed of Kobanumoku, Howell, Breyer, and Glancy, won the first elimination heat in the Olympic pool today, beating Italy in easy fashion. The Americans' times was 10:41 6-10.

The second heat went to Sweden with Holland second. Time 11:15 4-10.

Australia, Argentina, Czechoslovakia and Japan met in the fourth heat which was won by Australia, with Japan qualifying in second place. The Japanese swimmers pushed the winners whose time was 10:21 2-10.

AMERICAN WOMAN WINS OLYMPIC TENNIS FINALS

PARIS, July 18.—Helen Wills, American woman tennis champion, won her way to the finals of the Olympic championships today by defeating Mme. Golding, France, 6-2, 6-1 in the semi-finals.

Thus the little American girl, whose failure to win the world's championship at Wimbledon, disappointed her admirers, has a chance for an equally important title—the Olympic championship. To secure this she must defeat the winner of the McKane-Vlasto match in the finals on Monday. Miss Wills' game is vastly improved over the form she showed in England, her health is better, and she is playing a stronger game on the hard courts, with American balls.

LONE BOY KILLED

SEYMOUR, Texas, July 18.—Matthew Syptak, 16, died here yesterday as a result of injuries received when he was pinned beneath an automobile which overturned while he was driving it along a road east of here. The boy was in the car by himself.

Running Mate For La Follette Still Cannot Be Found

Washington, July 18.—Prospects are remote for the selection of a running mate for La Follette as the progressives met here today. The delay is not due to disputes but to a mass of business to attend to first.

Fighting Out Fine Point in Military Law

SAN ANTONIO, July 18.—What is believed a precedent for recognizing authority of an officer attired in civies who tells a soldier his rank and orders him to do something, counsel for Private Eddy Eddyhouse, wagon company No. 4, quartermaster corps, has taken exception to the evidence in his court martial trial in which he was sentenced to 10 years imprisonment, forfeiture of all pay and allowances and dishonorable discharge from the army. Eddyhouse was found guilty of striking first Lieutenant Paul R. Taylor of the 23rd infantry.

Both the officer and the private were dressed in civilian clothing, at the time of the trouble. Defense claims that under these circumstances the officer's assertion to the soldier that he was an officer was insufficient information.

Breakfast Confab Held By Premier

By LLOYD ALLEN
(United Press Staff Correspondent)

LONDON, July 18.—Progress over the breakfast table at Number 10 Downing Street, where Premier MacDonald fed a few allied and American statesmen kippers and bacon and eggs and they talked reparations problems informally, brought the conference on the experts plan closer to the plenary session and agreement stage today.

American Ambassador Kellogg, Premier Herriot of France, Premier Theunis of Belgium and Minister Stefani of Italy were among those who breakfasted with the British Premier.

It was understood the private chat promised to have the most important bearing upon future progress of the inter-allied conference.

The conference is still in the committee stage. Committee No. 3, on which the United States is represented by Ambassador Kellogg and Colonel James A. Logan, Jr., resumed its consideration of paragraph 5, section G, of the Franco-British memorandum this morning. This paragraph reads:

"(G) In order to fully take advantage of the reparations payments contemplated by the experts report and in order to insure benefit thereof to the nations concerned, the allies shall institute a special body whose task will be to give the governments concerned an opinion on the question of what system should be created, with a view to utilization of the payments made by Germany in particular concerning transfers and payments in kind."

Committee No. 1, on which Ambassador Kellogg, Colonel Logan and Leon Frazer and Frederick Delboare represent the United States, was to meet this afternoon to continue discussion of American participation in the reparations commission's work and appointment of an American as agent general of payments.

BRING IN NEW WELL IN RICHLAND AREA

Oxford Oil Company's Davis No. 1-1 near Richland, came in early Thursday and is making about 1,200 barrels a day, it was announced in oil circles.

The Sun Oil Company's A. N. Brown No. 1 is reported having made a fair oil showing, but has not been successfully completed.

Other work at Richland is reported progressing satisfactorily but with no new developments.

ELEVEN DIE IN FIRE

KANSAS CITY, Mo., July 18.—The known dead in the fire and explosion which destroyed an apartment building here early Thursday stood at eleven today with a dozen still missing. Bodies of two firemen and nine negroes have been recovered.

Starr County To Be Quarantined Is Now Believed

AUSTIN, Texas, July 18.—A United States Health Department official is enroute to Starr county to investigate the reported typhus fever epidemic. It is believed that quarantine may be established soon. Eighteen cases of so-called typhus have been reported and scores of others are believed to be ill with the disease which county authorities insist is typhus fever.

FEDERAL TROOPS MAKE LITTLE HEADWAY IN REVOLT

By BRYANT POWERS
(United Press Staff Correspondent)

BUENOS AIRES, July 18.—Hidden behind the absolute military censorship established by the Brazilian government events in the state of Sao Paulo, where state troops aided by a part of the federal garrison have revolted against the government it appeared that events were moving toward an impasse, with rebels controlling a majority of Sao Paulo state, but unable to effect communications with the outside.

Reports filtering into Buenos Aires and Montevideo indicated that the federal forces although now numbering about 20,000 men with tanks, airplanes, heavy artillery and machine gun units, are unable to make headway against the well-trained Sao Paulo units and have started down to a siege, hoping to force a rebel surrender by the simple process of cutting them off from all outside sources.

The federal tactics so far, according to travelers reaching Montevideo, have been scattered raids and intermittent bombardments of Sao Paulo city which has resulted in considerable loss of life, among the civilian population.

GOING TO "DRESS UP."

SAN ANTONIO, Texas, July 18.—Conductors and motormen of the street railway company are going to lay aside their blue overall uniforms and don the regulation blue serge and brass buttons, company officials have decided.

Misses Elenor Bowman and Maude Bishop of Hubbard are the guests of Mrs. Rex Forrest.

LA FOLLETTE HAS DEBS' HEARTY SUPPORT AND BACKING

CHICAGO, July 18.—Eugene V. Debs, socialist leader, from a sick bed in a local sanitarium, issued a call for the forces of socialism to swing behind La Follette. Debs declared that the progressive convention was in reality the American Labor party in "embryo." He ridiculed the charge that the socialist party was wrecked by its decision to join the La Follette forces.

It is understood that La Follette wants Senator Wheeler of Montana for his running mate. Wheeler is expected to state sometime today whether he will run as vice president on the La Follette ticket.

Olvany Named Leader of Tammany Hall.

GEORGE W. OLVANY
Judge George W. Olvany, of the Court of General Sessions, New York City, has been elected leader of Tammany Hall, the Democratic organization there, succeeding the late Charles F. Murphy.

McDonald Loses Important Bill; But Not To Quit

LONDON, July 18.—The MacDonald government was defeated in the House of Commons on a vote on the proposed amendment to the unemployment insurance bill. The conservatives and liberals loudly cheered the vote. The defeat of the government on a fairly important issue, while it may not lead to resignations, comes at a moment calculated to be embarrassing to the premier, who is at the head of the interallied conference. The government indicated that it would not resign by permitting debate to continue, and the bill, as amended, was read for the third time.

NEW GRAND SECRETARY FOR WASHINGTON

WASHINGTON, D. C., July 17.—J. Claude Keiper, Past Grand Master, has been appointed and installed as Grand Secretary of the Grand Lodge, Free and Accepted Masons, Grand Secretary of the Grand Chapter of Royal Arch Masons and Grand Recorder of the Grand Commandery of Knights Templar, all of the District of Columbia, in place of Arvine W. Johnston, who has served these Grand Bodies for many years, who resigned these offices on account of ill health. Brother Johnston has been made Emeritus Grand Secretary and Emeritus Grand Recorder of the above-named bodies, with full salary for life.

Grand Secretary Keiper is at present Secretary-Treasurer of the George Washington Masonic National Memorial Association, and has served in all branches of Masonry for many years.

West Texas—Tonight and Saturday partly cloudy, probable showers.

Pacific Coast Forest Blaze Is Now Exterminated

SAN FRANCISCO, July 18.—The fires which have raged on the Pacific coast for a week, died out today. Ranchers are going back to their homes, many of which were burned, while campers are going back into the forests.

Mystery of McLeary's Disappearance Solved

CHERAW, S. C., July 18.—A man hunt was underway for the companion of Mortimer King, confessed slayer of Major Samuel M. McLeary, aviation and artillery officer.

Efforts to apprehend the alleged accomplice were redoubled after the body of Major McLeary was found in a brush pile near here, a spot described by King in a detailed confession given Asheville police.

The body had lain just off the main highway since July 2 when the Major disappeared while enroute from Norfolk to Fort Moultrie, S. C.

Two bullet holes were found in the skull. An inquest was immediately held and a jury returned a verdict that Major McLeary had been murdered by Mortimer King and accomplice.

King was taken to the state prison at Columbia to await trial on a charge of first degree murder.

Missing British Flier Is Found

TOKIO, July 18.—Maor A. Stuart MacLaren, missing British world flier was found today safe on Urup Island in the Kuriles group, north of Japan.

The airman had covered about half the distance from Hokkaido to Paramushiro Island when forced down. He had just begun the most perilous part of his round the world flight—the crossing of the Pacific in short jumps from the blizzard whipped, frozen island to the next. Major MacLaren had been missing nearly 48 hours.

Major MacLaren will take off again at 4 o'clock tomorrow morning. The dispatch said the plane was not damaged and that the four passengers were all in high spirits.

WATCHING THE SCOREBOARD

Yesterday's hero—Jess Haines, who pitched the first no-hit game in the 1924 Major League campaign, allowing the Cardinals to win from the Braves, 5 to 0.

Traynor, flashy pirate third baseman walked into the hero class in Pittsburgh when he clouted out a home run in the 13th inning which gave Pittsburgh 4 to 3 victory over the Giants.

Burleigh Grimes was wild and the Dodger defense was wild so the Reds didn't have much trouble in winning 10 to 8.

Hollis Thurston won his ninth straight victory when he pitched the White Sox to a 13 to 5 victory over the Athletics.

Cliff Heathcote stole home in the ninth inning with the one run which gave the Cubs a 3 to 2 count against the Phillies.

The Senators divided a twin bill with St. Louis. The capital city boys lost the first game 3 to 0, but won the second 12 to 7.

CLEBURNE BOY DROWNS

CHILDRESS, July 18.—Robert Mincey, 25, of Wellington, was drowned in a lake at Mally Corners when rescuers were forced to abandon efforts to pull him from the water in order to save his sister who had gone to his rescue and had become exhausted. After rescuing his sister, other swimmers went to Mincey's aid but he had gone down for the last time.

MAN KILLED IN STORM

O'DONNELL, Texas, July 10.—George Brewer was killed and his wife and two of his children were injured near here late Wednesday when their home was wrecked by a tornado. A three year old child in Brewer's arms was unhurt.

CLEM SHAVER IS ANNOUNCED AS COMMITTEE'S CHAIRMAN

NEW YORK, July 18.—Clem Shaver of West Virginia, who did more than any other man to bring about the nomination of John W. Davis, has been decided upon as Davis' campaign manager and as chairman of the national committee, is learned authoritatively. The announcement is expected later.

American Flyers Are Ready to Start Home

BROUGH, England, July 18.—America's airmen will go into the north on the last stage of their world flight without wireless equipment on their planes, Lieutenant Smith, commanding the sky expedition, announced today. The object is to avoid overloading of the planes.

Business of over-hauling the machines in which the fliers will make their homeward dash has progressed so rapidly that the old engines were ready for removal this morning and it is expected now that the aviators will get away with the flood tide Wednesday morning. Tuesday will be devoted to testing the new floats on the estuary of the Humber.

It had been Lieutenant Smith's intention to have the planes equipped with wireless apparatus for communication with the destroyers, which will patrol the Iceland-Greenland-Labrador route, but it was said necessary anchors are adding 110 pounds in weight to each machine.

Wireless apparatus, however comforting, would mean another 110 pounds, so Lieutenant Smith ruled against it.

Band of Blacks Sink Ship in Foreign Parts

LONDON, July 18.—A band of black Australian aborigines, sank the 800 ton schooner Douglas Mawson at an unnamed location, murdered the male survivors and carried off an unknown number of white women, according to a Central News dispatch from Sydney where the report created a tremendous sensation.

A strong force has been dispatched into the northern territory in the hope of rescuing the women.

LA FOLLETTE HAS TEXAS FOLLOWING

DALLAS, Texas, July 18.—Names of electors for Robert M. La Follette as independent candidate for president will appear on Texas ballots in November, according to Warner Moore, Fort Worth, one of the Texas managers for the Wisconsin senator's campaign.

"LaFollette will get a minimum of 100,000 votes in Texas," Moore declared.

Active organization of the independent forces in the state will not be undertaken until after the Democratic primary elections.

County LaFollette clubs will be organized, Moore said, throughout Texas.

HELP BUILD ADDITION TO PYTHIAN ORPHAN HOME

Major N. P. Houx is circulating among the Pythians of Mexia a subscription paper for donations to the H. P. Brown Memorial Building Fund, the proceeds to go to building an annex to the Pythian Widows and Orphans Home at Weatherford, a building badly needed to house and educate the increased number of applicants. Members of the Order who can afford it should contribute to this worthy cause, as it is an investment in future men and women. No charity about it, just a good investment that will in after years yield worth while dividends.

Here's How It Happened

The Inside Story of the National Democratic Convention.

RELIGIOUS ISSUE.

At the conclusion and announcement of the defeat of the Minority plank on the League of Nations, Chairman Walsh announced that the debate on the religious issue would be next up and before anyone knew it almost, the Hon. William Patterson of Maine had advanced to the platform and was in the midst of his attack upon the majority plank which had failed to mention the Ku Klux Klan. He got a cheer at the out-out having begun his address with the salutation "Fellow Democrats."

He said that for the sake of a clear understanding of the matter, he desired to say that the minority committee accepted and endorsed and placed before the convention every single word that was put into the platform on the subject by the majority but added to it a supplemmentary and explanatory declaration.

"Now if you have examined or have had an opportunity to examine the report of the majority, you will find that their plank on that question consisted simply in a reiteration of the bill of rights preserved to American citizens under the bill of rights and the Constitution. It is splendid language and you applauded when I read it. It is a splendid declaration of those abstract principles upon which our government rests. We have merely applied those abstract principles to a concrete case." (Applause.)

This is the addition he proposed. "We condemn political sects, societies of all kinds as opposed to the exercise of free government (applause) and contrary to the spirit of the Declaration of Independence and the Constitution of the United States. We pledge the Democratic party to oppose any effort on the part of the Ku Klux Klan or an organization to interfere with the religious liberty of political freedom of any citizen (Applause). Or to limit the civic rights of any citizen or body of citizens, because of religious, birthplace or racial origin."

"Now, is there anybody who is an attendant on this convention as a delegate or an alternate who is so ignorant of what is going on in America today he does not know that that secret society that we mean by the Ku Klux Klan is a part of the fundamental principle that no man who is of the Catholic or the Jewish religion, no man who is colored, no man who is not native born is eligible to office? Is there any denial of that?"

Cries of no, no, no. Then we saw that we pledge the Democratic party to oppose any effort on the part of that organization or any other to interfere with American institutions. (Applause.)

The speaker said that Senator Owen of Oklahoma who had previously been on the platform and at that session defended the majority plank had declared that the only difference between the two was that one side did not name the Klan in the platform but that the same side was willing to name the Klan in denunciatory addresses before the convention which he said the majority committee had named the Klan in the platform and through the platform all

over these United States as well. Loud cheers greeted this remark. "I want the gospel of Democracy to be taught alike in Maine and in Texas, in Colorado and in Pennsylvania, wherever the gospel of democracy is preached at all" (Applause.)

A voice. "Attaboy." Another voice. "That's good." "If it is unwise to name the Klan, it is unwise to put something in the platform meaning the Klan" (Cries, No, Yes. Cheers and applause.)

There is more in this matter than the mere naming of a secret organization. There has crept into American life so strong an influence in certain States that United States Senators told me last night that if the Klan was opposed by them, they could not be re-elected to their seats in the Senate. There has crept into the life of the United States an influence so strong that it needs examination, and when we find that influence traversing the principles of religious liberty, traversing the principles of civil liberty, traversing the principles of religious freedom, it is time that we declare against those things that we all believe in. (Cheers.) If all these people of the United States had the broad tolerance of Senator Owen, if they all possessed the liberal ideas of Colonel Bryan, there would never be any need for any suggestion of this kind in the platform" (Applause.)

"I have in my pocket a card issued by this organization, whose methods, not whose membership, I condemn with questions written on it. 'Are you a protestant?' 'Are you white?' 'Are you native born?' Well, I am reasonably white, (laughter) I'm native born, my ancestors lived in the state where I now live for 200 years (Applause). I'm a protestant. I am a Knight Templar Mason, so I am eligible to that order if I want to join it. It cannot discriminate against me according to race or color or birthplace."

"But when I find that it does not send out a questionnaire like the one I have in my pocket, I wonder if its leaders, when questionnaires were being sent out in 1917, included those questions when the call to arms was sounded?"

"In your training camp, in your children's love."

ROTARANS SYMPATHIZE WITH BEREAVED MEMBERS

The Mexia Rotary club Thursday submitted a letter of condolence to Mr. and Mrs. R. L. Maddox following the recent loss of their daughter. Rotarian R. L. (Rube) Maddox and wife, Mexia, Texas.

Dear Rotarians:
The members of the Rotary Club of Mexia, Texas, have heard with sadness of the great sorrow that has come into your home and saddened your lives, in the loss of your precious little one, by the ruthless hand of death. We desire to assure you that we keenly share in the deep grief that has befallen you and offer to you our tenderest condolences as you walk in the shadows of this sore bereavement. In all kindness and love,
Yours Rotarily,
A. H. Eubanks, President
J. W. Elliott, Secretary.

"And when any society says to me that a man who was born of Jewish parents or of Catholic parentage, who was born in Canada and came here to make his home, who is colored, cannot be eligible to save his country in civil life, but shall serve it in military life if we need him, I will condemn them everywhere I meet them on the face of God's green earth. (Loud cheers and applause.)

am a Democrat because I was taught to believe that the basic, fundamental creed of the Democratic Party was that all Americans, living in every section, children of every race, members of every Church stood equal on a Democratic platform. I do not want to believe anything else. And I say to you that there needs to be sent over the whole, wide United States a message from Democracy that our party hates bigotry; hates intolerance; opposes intolerance and bigotry because it hates them and hates hypocrisy, and therefore calls bigotry and intolerance by their right name, when it speaks of them. WHAT TEXAS U. GETS IN OIL ROYALTIES

AUSTIN, Texas, July 18.—An accurate statement pertaining to the oil lands of the University of Texas has just been made by Dr. J. A. Udden, of the Bureau of Economic Geology, at the request of Acting President W. S. Sutton.

Dr. Udden states that the sum of \$7,398 has been deposited by the Land Commissioner of Texas, representing royalties on oil produced on the University lands in the Reagan County oil field and it is estimated that the total amount up to the end of July will be about \$8,000. The geological conditions are said to be such that it is impossible to foretell either the possible size of the field or its outline. What seems to be the most trustworthy opinion is that the field will have to be worked out by drilling, and that conjectures ahead of the drill are apt to be unreliable.

"It cannot fail to be harmful," said Dr. Udden, "to spread the opinion that the taxes in the State of Texas even will be lightened by oil royalties from this field. Under present conditions it is certainly premature, and unwise, to formulate any policies for financing the University from such an uncertain source. It is even possible that such royalties coming for a few years during the production of this field might prove to do harm to the University, which should have a steady income independent of the production of oil, cotton, or of beef. No great University can ever build upon a less certain foundation than a steady income that can be figured on for many years ahead. Such was evidently the intention of the wise men who put aside lands for the building of a great University in this State."

Fool Luck Must Have Been with Them

HOUSTON, Texas, July 18.—A Southern Pacific fireman's hunch saved the lives of three occupants of a Ford car who raced a freight train near here. The fireman saw the Ford approaching a railroad crossing and cautioned the engineer to get the train under control. Sure enough, the car tried to cross ahead of the freight, struck a cattle guard and threw the occupants directly on the track. The engineer, with the train under control stopped just in time to keep from hitting the men.

LETTERS From the People

Fairfield, Texas, July 16, 1924.
Editor Mexia Daily News,
Mexia, Texas.

Dear Sir:
Will you be kind enough to mention, as a news item, the fact that the Old Soldiers Reunion of W. L. Moody Camp No. 87, will be held in Fairfield on July 22-23 and 24th, and that the Old Soldiers of Joe Johnson Camp have a special invitation to attend.

Also state that our committee was in Mexia Tuesday and made arrangements with Werners Band to furnish the music for the reunion and with the Mexia Elks Club Orchestra to play our dance music.

We have Congressman L. A. Johnson and the Hon. Rufus Hardy on our program as speakers. Also have a responsible carnival company booked to furnish amusement.

Any courtesies shown or good words spoken will be appreciated by the committee.

Yours truly,
TOM LINDLEY.

JUST BEGINNING

GAINESVILLE, Texas, July 18.—Only freshmen work will be offered at the Junior College here during the 1924-25 term, according to an announcement by Dr. C. R. Johnson, member of the board of trustees of the school. The number of students entering for second year work would be too small, it is believed, to justify a sophomore class until the 1925-26 term.

Mrs. R. F. Lewis accompanied by her daughter, Virginia, and son, Robert, Jr., left Wednesday for a few weeks visit with relatives in Hunt county.

San Antonio Will Put Big Pot in Little Pot

SAN ANTONIO, Texas, July 18.—Special cars will be operated from outlying points in San Antonio's trade territory to San Antonio, and reduced rates have already been granted by the railroads, from all points in Texas to this city, for Trade Season and Merchants Institute, August 4-13, 1924, according to announcement today by Mr. Wm. M. Ochse, Chairman of the Trade Extension Department of the San Antonio Chamber of Commerce.

On August 3rd, special cars will leave: Rosenberg via Southern Pacific (GH&SA) Victoria division; Hempstead via Southern Pacific (H&TC); Houston via Southern Pacific (GH&SA); San Fordyce via Gulf Coast Lines (SAU&G); Palestine via I. & G. N.; San Angelo via Santa Fe Lines; with stops at all intermediate points, arriving in San Antonio at convenient hours for the merchants. The schedules as arranged will serve more than 250 towns.

Committees with automobiles have already been designated to meet all incoming and all visiting merchants will be taken directly to the Registration Booth at the Gunter Hotel and assisted in finding comfortable accommodations in close proximity to the wholesale houses and the downtown hotels, where the style shows, business clinics, merchants institutes, luncheons and dinner programs and theatre parties will be held.

Prof. Paul W. Ivey opens Merchants Institute at a luncheon meeting at the Gunter Hotel, Monday, August 4, talking on the subject of Creative Selling, and discussing the topics under the heading of Knowledge of Merchandise, Building Values, Increasing of Sales by Suggestions, and Creating Sales Talks. Prof. Ivey will continue his lectures throughout the week, each day taking up a subject

that is of personal interest to the retailer. Each day's program will be followed by a Business Clinic in which the problems of the Merchandiser will be carefully analyzed, according to Mr. Ochse.

The entire Trade Season Program is built to aid the retail merchant and to give him a more comprehensive idea of the science of modern merchandising as applied to getting the business in the face of aggressive competition. Every effort has been made by the wholesale establishments of San Antonio to have at the disposal of the visiting merchants a complete list of merchandise, and merchants visiting San Antonio will be greatly surprised at the extent of the rapid growth of this City as a distributing center, according to Chamber of Commerce officials.

THERE'S ART IN BOBBING

It's no longer a question of snip, snip and it's off.

Particular women now demand that the hair which remains form a becoming frame for the face and gracefully outlined head.

That's where "art" comes in, for there are as many styles of bobs as there are bobbed haired girls and women. Each one is an individual problem of chin, eyes, nose and mouth.

Then there's the fashionable element—the smart touch which has always associated Paris with women's coiffures—

And the necessity of keeping the hair glossy, fluffy and clean.

All that fastidious women desire will be accomplished by a weekly visit and a small sum well spent at

YES—We Have No Flat Bakings in Texas

The good housewives of Texas use Calumet; they know food baked with it is most nourishing and appetizing.

CALUMET
THE WORLD'S GREATEST BAKING POWDER

raises each and every baking to its highest nutritional value. There is no guess work—Calumet never fails.

Everything comes from the oven baked to an appetizing perfection that's fit for a king. Just ask any lady who uses it. Don't expect to find a better leavener—it's only folly. There's really no substitute for Calumet—that's why more women use it than any other kind. Let your past experience be your guide. Keep right on using Calumet. If you are one of the very few that have never tried it—begin NOW!

"For Mexia, I WILL"

LET THE CONSTITUTION ALONE

"Let the Constitution alone!" was the essence of the sentiment of the meeting of the American Bar Association, which has just closed its forty-seventh annual convention in Philadelphia, under the presidency of Robert E. Lee Saner of Dallas, Texas.

Mr. Saner noted that in the last Congress there were a hundred proposals to amend the fundamental law of the land, most of them looking towards making of the national government a sort of super-bureaucracy of wholly paternalistic tendency.

It is generally understood and agreed by all of us that the national government, within the laws made and provided and under the Constitution is all powerful. Because the Constitution provides a means by which it may be amended, the national and state legislatures have the right, the power, the ability to amend it. But it should be most carefully noted that because a man may do something is no reason why he must do it, and that there is a social obligation which prevents the exercise of many rights either given or implied by law. No statute compels a man to wear a coat or collar in public, remove his hat in church, or forbids him to paint his house pink with green dragons on it. A sane observance of decency and neighborliness prevents him from doing that which would make others uncomfortable merely because he has a right to do it. That same sane observance of the unwritten rights of us all, must be encouraged to prevent law makers from doing what they have a right to do, merely because they have it.

The Constitution is the underlying force which has made the United States great. We know what it can do, because we know what it has done. We do not know what it may do if repeatedly amended. Neither this nor any statements by the great lawyers of the American Bar Association are intended to mean that the Constitution should never be amended, but only that it should be amended but slowly, and not until the absolute necessity of that amendment is clearly and unequivocally shown to exist. If every Congress passed a hundred amendments to the Constitution, and every year saw those one hundred enactments ratified by three-fourths of the States, the great and fundamental law of this land would lose its character in half a decade. "We, the people of the United States" would then find ourselves living, not under the republic founded and cherished by the forefathers; fought, bled and died for by our patriots, loved and protected by Lincoln, and held up as a god among governments, but under a new, untried and doubtful form of government which, because it could not do better than the constitutional government has done would inevitably do far worse.

"Let the Constitution alone!" might well be coupled with "Honor the flag!" as a basic American cry.

HAPPY WEDDING FOR MEXIA COUPLE

John Klotz, oldest son of our fellow townsman Fred Klotz and Miss Ary Capell daughter of Mr. and Mrs. Bob Capell surprised their many friends Wednesday night by dining to Gooch-Jack and being married by the Methodist minister of that city and after returning home caught the train for Dallas where they will remain several days returning to make their future home in Mexia. Both of the contracting parties are members of Mexia's leading families and socially prominent and we join their host of friends in wishing them a happy voyage down the pathway of life.

Carl Davis Tells Idaho Folks About Bigness of Texas

The following description of Texas and account of a visit to Idaho of Carl Davis and family recently appeared in The Burely (Idaho) Herald:

Carl Davis and family came to Burley a week or so ago on a visit to his relatives. Carl worked at the Davis Merc. for some time when he came to the conclusion Cassia county and Idaho was too small for him so he moved to Mexia, Texas, where there is plenty of room to move around without bumping into a competitor. Carl is running a laundry in Mexia that employs 32 people but he didn't tell us where he got water for use in his wash shop. He may be using crude petroleum.

We were glad to see Carl and family looking so well and prosperous. He certainly don't show signs of mental worry over unpaid bills but looks as if his bank balance was a long way from the "red."

In speaking of that little strip of ground that Mexico gave up and later was absorbed by the United States he gives it a big boost. It makes us people up north feel small.

Listen to what Carl says of his home state:

Texas occupies all the continent of North America except a small part set aside for the United States and Canada. Texas owns the north half of the Rio Grande, the only dusty river in the world, also the only one, with the possible exception of the Trinity, which is navigable for pedestrians and mud cats.

Texas is bound on the north by twenty-five or thirty states and on the east by all the oceans in the world except the Pacific, and on the south by the Gulf of Mexico and South America, and on the west by the Pacific Ocean, the milky way, and the Sederal Universe. If Texas were chopped loose from the rest of the United States and the Panhandle, it would float out into the ocean, for it rests upon a vast subterranean sea of fresh water.

Texas is so big that people in Brownsville call the Dallas people Yankees, and the citizens of El Paso speak at the citizens of Texarkana as being snobs of the effete east. It is 150 miles further from El Paso to Texarkana than it is from Chicago to New York; Dallas is nearer St. Paul, Minn., than it is to Brownsville, Texas. The United States with Texas left out would look like a three-legged Boston terrier. Chief

occupation of the people of Texas is trying to keep from making all the money in the world. Chief pursuit of the Texans was formerly Mexicans, but it is land buyers, steers and Texas crop records.

Texans are so proud of Texas that they cannot sleep at night. If a Texan's head should be opened, the map of the state would be found on his brain. Unless your front gate is at least eighteen miles from your front door you do not belong to society as constituted in Texas. Mrs. King's gate is 160 miles from her front door and she is thinking of moving her house back so that she won't be annoyed by the passing automobiles. Other Texas landlords have whole mountain ranges and rivers on their ranches. One Texan has forty miles of navigable river on his farm. If the proportion of cultivated land in Texas were the same as Illinois, the Texas crops would equal that of the thirty-seven other states combined. Texas has enough land to supply every man, woman and child in the whole world, with a trace of 5x20 feet and have enough left

ROTARIANS ENJOY FINE MEETING AT LUNCHEON AT NOON

The Mexia Rotary club was favored Thursday with one of the best luncheon programs in its history. The meeting was called to order by Vice President I. W. Keys, who served in that capacity, in the absence of Hon. Hardy Eubanks, President, who with Secretary J. W. Elliott was spending the day with the Palestine Rotary club. Mr. Keys introduced the guests, after which he turned the program over to F. P. Huchingson. Mr. Huchingson called upon Miss Frances Bass who attended Rotary International at Toronto, who made a very splendid and highly appreciated report. She was introduced by Albert Berry, delegate from Mexia, who declared that the Canadians could not compare with Texas at all when it came to beautiful women and he further said that Mexia and Corsicana won the prize, according to popular opinion, of all the delegations in this respect. Miss Bass made her report in a most winsome manner and received generous applause.

H. W. Mayo, Kiwanian from Houston, touring this section in the interest of the Safety Campaign of the Southern Pacific Railroad. He made a very practical, common sense and interesting talk, in which he urged Rotarians and all others to cooperate in the Safety First campaign. He said that the United States lost 48,000 lives in the world war and that during the same period 128,000 lives were snuffed out by accidents, 90 per cent of which could have been averted. At the conclusion of his remarks, Fred Karner briefly stated that in his travels of late he had noticed that signs had been placed at railroad crossings by Rotary clubs warning the public against careless driving. He suggested that Mexia Rotary might act along the same line. This suggestion by Mr. Karner and the address of Mr. Mayo were well received.

Hon. Luther Johnson, of Corsicana, Congressman from this district, spoke briefly, extending greetings to the Rotarians. He was introduced by Mr. Keys that he would be called upon at a later date to speak before the club with reference to the acts of the last session of Congress. Congressman Johnson originated his willingness to return for such an occasion.

The Art of Beauty

By H. M. DOUGLAS

Making Up In The Right Light

MOST women have had the experience of having carefully powdered, rouged, lip-sticked, and dressed to their satisfaction at home—only to discover that the crystal lights of the restaurant, or where ever they found themselves later in the evening have given them a ghastly and ugly coming hue instead of the soft flush seen by their rose-tinted boudoir lamp.

Such an occurrence as this can nearly always be averted. If you are going out in the daylight, it is a simple matter to make up by the window—and then there will be no guess work as to how you will look when you get outside.

Similarly, it may be more flattering to dress by rose-colored lights, but if you are going to be where there are no shaded lamps, the thing to do is to turn out your boudoir lamp and make up by an ordinary overhead light—if you would look well the rest of the evening.

More rouge is needed at night under bright electric lights than in the day time. The shade of

your rouge will depend largely on your costume, but it is surprising the various effects that may be obtained from one rouge when used with different shades of powder.

In New York now the new Mandarin rouge with its orange tone is equally popular for day and night wear. It is very saucy, very intriguing, and offers a chance for daring evening effects, when the eyebrow pencil and lipstick are skillfully applied.

In the daytime, however, a very different effect of natural glow can be given with this same rouge toned down with rachel or a tannish powder like Peaches to harmonize with the skin.

In general one should use a lighter powder in the evening than in the daytime. A woman who likes Peaches or Peaches and Cream powder for daytime outdoor wear may find that rachel suits her better for evening, and the blonde with the delicate skin who uses the natural flesh shade may discover that she needs to lighten this to get the effect of delicate transparency "after six."

A bit of light on the subject of door wear may find that rachel suits her better for evening, and the blonde with the delicate skin who uses the natural flesh shade may discover that she needs to lighten this to get the effect of delicate transparency "after six."

GIVES SIMPLE REMEDY FOR SEPTIC POISON

The untimely death of the President's son from infection has stirred all of our hearts and, coupled with the country's bereavement, no doubt the feeling is widespread that whatever anyone knows that might save other boys ought to be widely disseminated. For that reason I am sending this word to The News, asking for its publication and requesting other papers throughout the country to copy it.

First of all, permit me to say that I am an old-time physician, having practiced medicine for a number of years. During my incumbency as a doctor I was a member of the County Medical Society and of the Texas State Medical Association. The remedy I am about to suggest is not a patent medicine. It is compounded by one of the greatest chemists the country has ever known—John Uri Lloyd of Cincinnati, Ohio, now professor emeritus of chemistry in a Cincinnati medical college. The following is the prescription: Lloyd's specific tincture of Echinacea, ounces 1; distilled water, enough to make ounces 1.

In all acute infections in adults take one teaspoonful of this mixture every hour. Let the dose be decreased

2,500 Hear Jim Ferguson Speak

A crowd estimated at 2,500 gathered at the Court House in Groesbeck Wednesday afternoon, at which time Jim Ferguson spoke for about two hours in the interest of his race for Governor of Texas. He was cheered to the echo many times during the course of his address in which he presented the issues of the hour as he saw them. The crowd was composed of citizens who gathered from all parts of the county and from adjoining counties, upon whom it is said, a profound impression was made in behalf of his candidacy. With the exception possibly of the Lynch Davidson address in Mexia about two weeks ago, it was the largest political gathering of the year in Limestone County.

I have indicated with absolute confidence. No remedy achieves a perfect result in all cases, but I have not a doubt that this simple prescription will save many a life if the public generally is apprised of it and will use it. The pure tincture is available as a local application if the infected parts can be reached with the medicine.

SON OF SAN JACINTO SURVIVOR VISITS IN LUBBOCK

"Sure, I'm at home in Lubbock. I'm at home wherever I may be in Texas," declared Hampton Steele, of Thornton, Limestone county, Texas, while visiting at the Avalanche office Saturday afternoon.

Mr. Steele visited Lubbock five years ago and stated that while he knew the town well at that time, it has made such growth that it isn't at all like the same place.

Mr. Steele claims to be the oldest native Texan now in the State, having reached the age of eighty-five years. He is a distinguished pioneer who has lived under four flags in the Lone Star State. He was born in 1839, and lived under the Lone Star flag which was in existence from 1836 to 1845. While the Stars and Stripes waved over Texas from 1845 to 1861 he retained his citizenship in the state and lived in the Lone Star State.

Mr. Steele served the federal army of the South as a soldier in the Confederate army.

Mr. Steele is the oldest son of Alphonso Steele, the last survivor of the Battle of San Jacinto who died in 1911 at the age of 94 years and three months.

"I am still a young man, and my greatest ambition is to live to attend the Texas Centennial Celebration which will be appropriately conducted in 1936," Mr. Steele said, pointing out that if this desire is fulfilled and he is in attendance at the celebration he will at that time be 97 years of age.

The pioneer Texan is in the best of health at this time and is one of the most optimistic men of anything like his age to be found anywhere.

Mr. Steele has figured conspicuously in the life of Texas since young manhood and his name is not unfamiliar to the students in Texas history. He was here Saturday from Plainview in company with his daughter and her husband, Mr. and Mrs. W. B. Rogers, of Plainview, to visit another daughter, Mrs. Ethel Steele, whose home is in Lubbock.

The pioneer is said to be the only man in Texas who had a great grandson in the World War, Walter West, who served with the A. E. F. in France with the famous Rainbow Division, is the grandson and his participation in the engagements over sea proved that he is a worthy descendant of the historic Steele family.

Mr. Steele has 120 members in his family, as follows: 14 children, 53 grandchildren, 60 great grandchildren and three great-great-grandchildren.

He will spend the summer on the plains, dividing his time in visiting his daughters in Lubbock and Plainview—Lubbock Avalanche.

Homeless Man And Automobile Family

EL PASO, Texas, July 18.—The "homeless man" and the "automobile family" are two of the most serious dangers to the country and the American home today, according to J. B. Rawlings of the Associated Charities here. Rawlings pointed out that 25 years ago, the "homeless man" was the man too old to work. Today he is the boy from 16 to 25 years of age who is seeing the country at the expense of communities, Rawlings said.

The automobile family is of the same nature. Traveling about the country throughout the year, children of these people never go to school or church, Rawlings said. As a result, they become "drifters" later on.

TO MY LIMESTONE COUNTY FRIENDS

I would not dictate; but say there are five candidates for the Waco Court of Appeals—only three to be elected. To you who do not know the men and their qualifications, I ask that you vote for J. N. Gallagher, J. A. Stanford and L. R. Randolph.

For State Senator, vote for Edgar E. Witt.

Respectfully, W. E. DOYLE.

Gushers Lose Game to Rangers

Scott Pitches a Good Game With Good Support

By HECK

In a dandy game sprinkled with good plays, bad plays, dumb base running, loafing, cheers and sobs the Gushers were walloped again by McElver & Co. at the ball pen Thursday afternoon, 5-3. There is not a whole lot to tell except that we got beat and that Wild Man Scott was not wild but instead pitched the kind of a game that a pitcher of his caliber is capable of pitching when he gets any help at all from his mates and any breaks at all. Carl Hill pitched a good game—good enough to win most any day when the gang plays ball behind him and in spite of the "ridings" the tin-horn sports started when the Rangers got a few base knocks I still say that under ordinary conditions Carl should have had an even break. The Rangers got to Carl for ten blows but their scoring could have been held to fewer runs with fast fielding. The Gushers tallied two in the second when Seely opened the frame with a one base knock to center. Clements took Butler's grounder and threw wild to second. Gaither being barely able to leap high enough to knock the ball down and Ned and Otis both rested safely. Country Williamson bluffed a hunt and then shot a single over third which Wren fielded in fast time holding Seely at third. With the racks loaded Naylor grounded to Scott who threw Ned out at the plate and Banner's fast relay to Anheiler snatched Naylor for a twin killing. Leedy busted a single to center scoring Butler and Williamson. The Rangers came back and rang the bell three times in the third on Wren's single, Clements' sacrifice, singles by Anheiler and Courtney between which Bedford sandwiched a double over Bryan's head. Two more Rangers counted in the sixth on Gaither's two banger, Wren's single to right that took a bad hop to Seely, allowing Gaither to tally and Wren to go to second. Clements hit a short single back of second that Bryan handled slowly allowing Wren to leg it over the pan for another tally. Ted Jones' sock over the right field fence gave the Gushers their last tally in the eighth. Another battle with the Rangers is billed at the ball yard this p. m. and it looks like McElver will shoot Dick Whitworth at us and the world knows that Dick is one of the best heaters in this loop. Jeffries is due for the Gushers and Jeff and Dick should get to the mat with a great game.

WELL KNOWN GOLF PLAYER IN WACO

Harry Cooper, professional golf champion, who was in Mexia several weeks ago, where he played an exhibition match on the Mexia golf club links, is now in Waco where he and M. L. Massingill of Fort Worth, will play for the benefit of the Waco Boy Scouts and the Waco Rotary Club.

Press reports assert also that in addition to the match, Cooper will give an exhibition of trick shooting with golf balls, including driving a ball off a watch, and off a man's face, if anyone will volunteer to let his face be the "tee" for the latter stunt.

Massingill and Cooper will oppose each other as members of a foursome which will go 36 holes, 18 in the morning and 18 in the afternoon. Cooper's partner will be Harold Shear of Waco, while Massingill will play with "Doug" Herring of Waco.

SAN ANTONIO LADY GAINS 20 LBS. TAKING TANLAC

STOMACH AND NERVOUS TROUBLES HAD HER IN BAD FIX

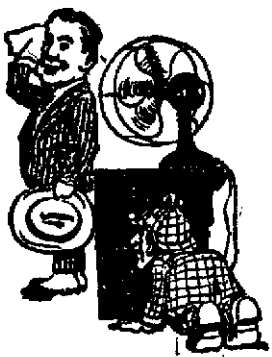

"The makers of Tanlac will always have my heartfelt thanks for Tanlac restored my health and increased my weight 20 pounds a year ago and the good it did me then has lasted to this day," are the appreciative words of Mrs. Irene Rodriguez, 105 W. Mitchell St., San Antonio, Texas.

"Stomach and nerve troubles had clung to me so long it seemed a further waste of time and money to try to get relief. I was never hungry and I suffered so badly from gas and pains in my stomach that I was miserable. I was also subject to chills and fevers, headaches every day and was always extremely nervous. I got so little sleep at night that I felt almost too tired out to move and when I began taking Tanlac I was so weak it seemed I would have to go to bed to stay. Some of my friends told me that Tanlac would help me and sure enough, my first bottle made me feel much better. I kept on taking Tanlac and improving steadily and after using five bottles I was perfectly well and happy. Since taking Tanlac, I have been eating and digesting everything and I feel fine and strong every hour of the day. My husband has also used Tanlac and we both think there is nothing like it."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Tanlac Vegetable Pills, for Constipation, made and recommended by the manufacturers of TANLAC.

WEST VIRGINIAN TO MANAGE DAVIS CAMPAIGN GANGSTERS SWEAR SERIOUS CHARGE AGAINST REPUBLICANS

ADMIT EMPLOYED TO BREAK R. I. SENATORIAL FILIBUSTER

PROVIDENCE, R. I., July 18.—A sensational story was printed in the Providence News in which it is asserted that the newspaper has affidavits from a number of Boston and New York gangsters in which they confess that they were hired by Republicans to break the recent filibuster in the state legislature. The gangsters, according to the story, threw bundles of chemically treated gauze and paper in the senate chamber, forcing the senators to flee. One of the men who hired them was Wm. C. Pelky, chairman of the republican state central committee, he gangsters declared.

Boy Returns Home After His Funeral

ATLANTA, Ga., July 18.—John W. Hinton, 15 years old, who was "buried" at Bogart late yesterday was at home with his parents here again today.

The remains of a youth found on a railroad track near Cartersville were identified by Mr. and Mrs. William H. Hinton as their son who had left home a few days previously. Plans were made for the funeral and relatives and school mates of young Hinton viewed the body and confirmed the identity. Insurance adjusters came and arranged claims and adjustment papers.

Then the body was taken to Bogart and an impressive funeral service held.

As the grief stricken father and mother and other mourners were boarding a train to return to Atlanta young Hinton rushed up. He had been visiting with a distant relative near Bogart and his whereabouts learned by a cousin who went for him.

Authorities now believe the body buried as that of young Hinton was that of Collis Harris, 16, of Blakely.

Americans Win First In Swimming Race

PARIS, July 18.—The United States 800-meter relay swimming team, composed of Kohanamoku, Howell, Breyer, and Glancy, won the first elimination heat in the Olympic pool today, beating Italy in easy fashion. The Americans' times was 10:41 6-10.

The second heat went to Sweden with Holland second. Time 11:15 4-10.

Australia, Argentina, Czechoslovakia and Japan met in the fourth heat which was won by Australia, with Japan qualifying in second place. The Japanese swimmers pushed the winners whose time was 10:21 2-10.

AMERICAN WOMAN WINS OLYMPIC TENNIS FINALS

PARIS, July 18.—Helen Wills, American woman tennis champion, won her way to the finals of the Olympic championships today by defeating Mme. Golding, France, 6-2, 6-1 in the semi-finals.

Thus the little American girl, whose failure to win the world's championship at Wimbledon, disappointed her admirers, has a chance for an equally important title—the Olympic championship. To secure this she must defeat the winner of the McKane-Vlasto match in the finals on Monday. Miss Wills' game is vastly improved over the form she showed in England, her health is better, and she is playing a stronger game on the hard courts, with American balls.

LONE BOY KILLED

SEYMOUR, Texas, July 18.—Matthew Sytak, 16, died here yesterday as a result of injuries received when he was pinned beneath an automobile which overturned while he was driving it along a road east of here. The boy was in the car by himself.

Running Mate For La Follette Still Cannot Be Found

Washington, July 18.—Prospects are remote for the selection of a running mate for La Follette as the progressives met here today. The delay is not due to disputes but to a mass of business to attend to first.

Fighting Out Fine Point in Military Law

SAN ANTONIO, July 18.—What is believed a precedent for recognizing authority of an officer attired in civies who tells a soldier his rank and orders him to do something, counsel for Private Eddy Eddyhouse, wagon company No. 4, quartermaster corps, has taken exception to the evidence in his court martial trial in which he was sentenced to 10 years' imprisonment, forfeiture of all pay and allowances and dishonorable discharge from the army. Eddyhouse was found guilty of striking first Lieutenant Paul R. Taylor of the 23rd infantry.

Both the officer and the private were dressed in civilian clothing, at the time of the trouble. Defense claims that under these circumstances the officer's assertion to the soldier that he was an officer was insufficient information.

Breakfast Confab Held By Premier

By LLOYD ALLEN
(United Press Staff Correspondent)

LONDON, July 18.—Progress over the breakfast table at Number 10 Downing Street, where Premier MacDonald fed a few allied and American statesmen kippers and bacon and eggs and they talked reparations problems informally, brought the conference on the experts plan closer to the plenary session and agreement stage today.

American Ambassador Kellogg, Premier Herriot of France, Premier Theunis of Belgium and Minister Stefani of Italy were among those who breakfasted with the British Premier.

It was understood the private chat promised to have the most important bearing upon future progress of the inter-allied conference.

The conference is still in the committee stage. Committee No. 3, on which the United States is represented by Ambassador Kellogg and Colonel James A. Logan, Jr., resumed its consideration of paragraph 5, section G, of the Franco-British memorandum this morning. This paragraph reads:

"(G) In order to fully take advantage of the reparations payments contemplated by the experts report and in order to insure benefit thereof to the nations concerned, the allies shall institute a special body whose task will be to give the governments concerned an opinion on the question of what system should be created, with a view to utilization of the payments made by Germany in particular concerning transfers and payments in kind."

Committee No. 1, on which Ambassador Kellogg, Colonel Logan and Leon Frazer and Frederick Dolbeare represent the United States, was to meet this afternoon to continue discussion of American participation in the reparations commission's work and appointment of an American as agent general of payments.

BRING IN NEW WELL IN RICHLAND AREA

Oxford Oil Company's Davis No. 11 near Richland, came in early Thursday and is making about 1,200 barrels a day, it was announced in oil circles.

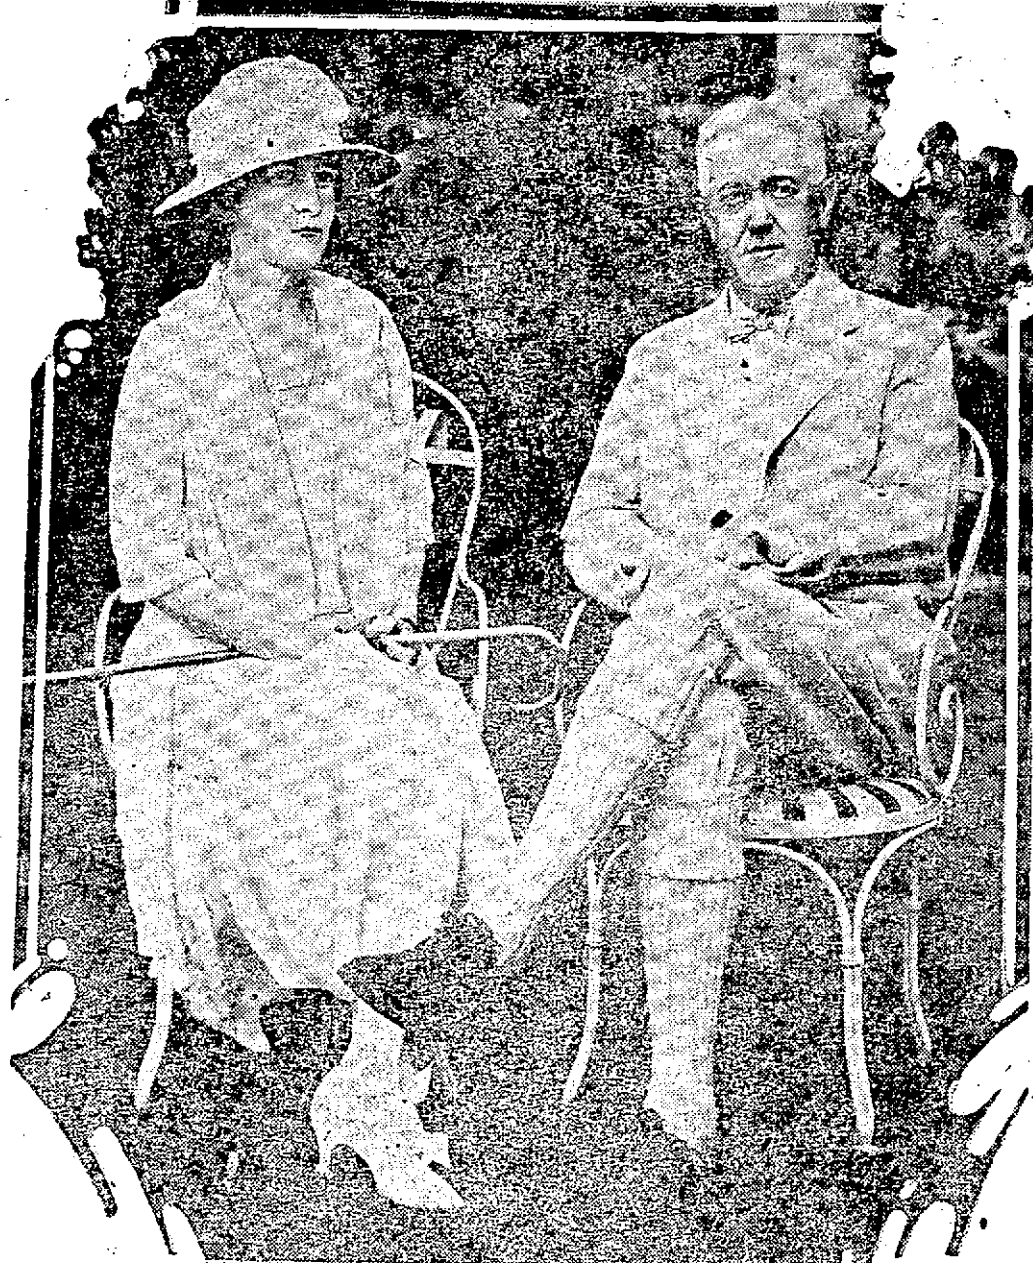

The Sun Oil Company's A. M. Brown No. 1 is reported having made a fair oil showing, but has not been successfully completed.

Other work at Richland is reported progressing satisfactorily but with no new developments.

Starr County To Be Quarantined Is Now Believed

AUSTIN, Texas, July 18.—A United States Health Department official is enroute to Starr county to investigate the reported typhus fever epidemic. It is believed that quarantine may be established soon. Eighteen cases of so-called typhus have been reported and scores of others are believed to be ill with the disease which county authorities insist is typhus fever.

FEDERAL TROOPS MAKE LITTLE HEADWAY IN REVOLT

By BRYANT POWERS
(United Press Staff Correspondent)
BUENOS AIRES, July 18.—Hidden behind the absolute military censorship established by the Brazilian government events in the state of Sao Paulo, where state troops aided by a part of the federal garrison have revolted against the government it appeared that events were moving toward an impasse, with rebels controlling a majority of Sao Paulo state, but unable to effect communications with the outside.

Reports filtering into Buenos Aires and Montevideo indicated that the federal forces although now numbering about 20,000 men with tanks, airplanes, heavy artillery and machine gun units, are unable to make headway against the well-trained Sao Paulo units and have settled down to a siege, hoping to force a rebel surrender by the simple process of cutting them off from all outside sources.

The federal tactics so far, according to travelers reaching Montevideo, have been scattered raids and intermittent bombardments of Sao Paulo city which has resulted in considerable loss of life, among the civilian population.

GOING TO "DRESS UP."

SAN ANTONIO, Texas, July 16.—Conductors and motormen of the street railway company are going to lay aside their blue overall uniforms and don the regulation blue serge and brass buttons, company officials have decided.

Misses Elenor Bowman and Maude Bishop of Hubbard are the guests of Mrs. Rex Forrest.

LA FOLLETTE HAS DEBS' HEARTY SUPPORT AND BACKING

CHICAGO, July 18.—Eugene V. Debs, socialist leader, from a sick bed in a local sanitarium, issued a call for the forces of socialism to swing behind La Follette. Debs declared that the progressive convention was in reality the American Labor party in "embryo." He ridiculed the charge that the socialist party was wrecked by its decision to join the La Follette forces.

It is understood that La Follette wants Senator Wheeler of Montana for his running mate. Wheeler is expected to state sometime today whether he will run as vice president on the La Follette ticket.

GEORGE W. OLVANEY. Judge George W. Olvaney, of the Court of General Sessions, New York City, has been elected Leader of Tammany Hall, the Democratic organization there, succeeding the late Charles F. Murphy.

McDonald Loses Important Bill; But Not To Quit

LONDON, July 18.—The MacDonald government was defeated in the House of Commons on a vote on the proposed amendment to the unemployed insurance bill. The conservatives and liberals loudly cheered the vote. The defeat of the government on a fairly important issue, while it may not lead to resignations, comes at a moment calculated to be embarrassing to the premier, who is at the head of the interallied conference. The government indicated that it would not resign by permitting debate to continue, and the bill, as amended, was read for the third time.

NEW GRAND SECRETARY FOR WASHINGTON

WASHINGTON, D. C., July 17.—J. Claude Keiper, Past Grand Master, has been appointed and installed as Grand Secretary of the Grand Lodge, Free and Accepted Masons, Grand Secretary of the Grand Chapter of Royal Arch Masons and Grand Recorder of the Grand Commandery of Knights Templar, all of the District of Columbia, in place of Arvine W. Johnston, who has served these Grand Bodies for many years, who resigned these offices on account of ill health.

Brother Johnston has been made Emeritus Grand Secretary and Emeritus Grand Recorder of the above-named bodies, with full salary for life.

Grand Secretary Keiper is at present Secretary-Treasurer of the George Washington Masonic National Memorial Association, and has served in all branches of Masonry for many years.

Pacific Coast Forest Blaze Is Now Exterminated

SAN FRANCISCO, July 18.—The fires which have raged on the Pacific coast for a week, died out today. Ranchers are going back to their homes, many of which were burned, while campers are going back into the forests.

Mystery of McLeary's Disappearance Solved

CHERAW, S. C., July 18.—A man hunt was underway for the companion of Mortimer King, confessed slayer of Major Samuel M. McLeary aviation and artillery officer.

Efforts to apprehend the alleged accomplice were redoubled after the body of Major McLeary was found in a brush pile near here, a spot described by King in a detailed confession given Asheville police.

The body had lain just off the main highway since July 2 when the Major disappeared while enroute from Norfolk to Fort Moultrie, S. C.

Two bullet holes were found in the skull. An inquest was immediately held and a jury returned a verdict that Major McLeary had been murdered by Mortimer King and accomplice.

King was taken to the state prison at Columbia to await trial on a charge of first degree murder.

Missing British Flier Is Found

TOKIO, July 18.—Maor A. Stuart MacLaren, missing British world flier was found today safe on Urupp Island in the Kuriles group, north of Japan.

The airman had covered about half the distance from Hokkaido to Paramushiro Island when forced down. He had just begun the most perilous part of his round the world flight—the crossing of the Pacific in short jumps from the blizzard whipped, frozen island to the next. Major MacLaren had been missing nearly 48 hours.

Major MacLaren will take off again at 4 o'clock tomorrow morning. The dispatch said the plane was not damaged and that the four passengers were all in high spirits.

WATCHING THE SCOREBOARD

Yesterday's hero—Jess Haines, who pitched the first no-hit game in the 1924 Major League campaign, allowing the Cardinals to win from the Braves, 5 to 0.

Traynor, flashy pirate third baseman walked into the hero class in Pittsburgh when he clouted out a home run in the 13th inning which gave Pittsburgh 4 to 3 victory over the Giants.

Burleigh Grimes was wild and the Dodger defense was wild so the Reds didn't have much trouble in winning 16 to 8.

Hollis Thurston won his ninth straight victory when he pitched the White Sox to a 13 to 5 victory over the Athletics.

Cliff Heathcote stole home in the ninth inning with the one run which gave the Cubs a 3 to 2 count against the Phillies.

The Senators divided a twin bill with St. Louis. The capital city boys lost the first game 3 to 0, but won the second 12 to 7.

CLEBURNE BOY DROWNS

CHILDRESS, July 18.—Robert Mincey, 25, of Wellington, was drowned in a lake at Mally Corners when rescuers were forced to abandon efforts to pull him from the water in order to save his sister who had gone to his rescue and had become exhausted. After rescuing his sister, other swimmers went to Mincey's aid but he had gone down for the last time.

MAN KILLED IN STORM

O'DONNELL, Texas, July 10.—George Brewer was killed and his wife and two of his children were injured near here late Wednesday when their home was wrecked by a tornado. A three year old child in Brewer's arms was unhurt.

CLEM SHAVER IS ANNOUNCED AS COMMITTEE'S CHAIRMAN

NEW YORK, July 18.—Clem Shaver of West Virginia, who did more than any other man to bring about the nomination of John W. Davis, has been decided upon as Davis' campaign manager and as chairman of the national committee, is learned authoritatively. The announcement is expected later.

American Flyers Are Ready to Start Home

BROUGH, England, July 18.—America's airmen will go into the north on the last stage of their world flight without wireless equipment on their planes, Lieutenant Smith, commanding the sky expedition, announced today. The object is to avoid overloading of the planes.

Business of over-hauling the machines in which the fliers will make their homeward dash has progressed so rapidly that the old engines were ready for removal this morning and it is expected now that the aviators will get away with the flood tide Wednesday morning. Tuesday will be devoted to testing the new floats on the estuary of the Humber.

It had been Lieutenant Smith's intention to have the planes equipped with wireless apparatus for communication with the destroyers, which will patrol the Iceland-Greenland-Labrador route, but it was said necessary anchors are adding 110 pounds in weight to each machine.

Wireless apparatus, however comforting, would mean another 110 pounds, so Lieutenant Smith ruled against it.

Band of Blacks Sink Ship in Foreign Parts

LONDON, July 18.—A band of black Australian aborigines, sank the 300 ton schooner Douglas Mawson at an unnamed location, murdered the male survivors and carried off an unknown number of white women, according to a Central News dispatch from Sydney where the report created a tremendous sensation.

A strong force has been dispatched into the northern territory in the hope of rescuing the women.

LA FOLLETTE HAS TEXAS FOLLOWING

DALLAS, Texas, July 18.—Names of electors for Robert M. La Follette as independent candidate for president will appear on Texas ballots in November, according to Warner Moore, Fort Worth, one of the Texas managers for the Wisconsin senator's campaign.

"LaFollette will get a minimum of 100,000 votes in Texas," Moore declared.

Active organization of the independent forces in the state will not be undertaken until after the Democratic primary elections.

County LaFollette clubs will be organized, Moore said, throughout Texas.

HELP BUILD ADDITION TO PYTHIAN ORPHAN HOME

Major N. P. Houx is circulating among the Pythians of Mexia a subscription paper for donations to the H. P. Brown Memorial Building Fund, the proceeds to go to building an annex to the Pythian Widows and Orphans Home at Weatherford, a building badly needed to house and educate the increased number of applicants. Members of the Order who can afford it should contribute to this worthy cause, as it is an investment in future men and women. No charity about it, just a good investment that will in after years yield worth while dividends.

H. B. Littman of this city has returned from Huntsville and Houston where he spent several days on business.

Here's How It Happened

The Inside Story of the National Democratic Convention.

By A. GARLAND ADAIR

Managing Editor of The Mexia Daily News

RELIGIOUS ISSUE.

At the conclusion and announcement of the defeat of the Minority plank on the League of Nations, Chairman Walsh announced that the debate on the religious issue would be next up and before anyone knew it almost, the Hon. William Patterson of Maine had advanced to the platform and was in the midst of his attack upon the majority plank which had failed to mention the Ku Klux Klan. He got a cheer at the outset having begun his address with the salutation "Fellow Democrats."

He said that for the sake of a clear understanding of the matter, he desired to say that the minority committee accepted and endorsed and placed before the convention every single word that was put into the platform on the subject by the majority but added to it a supplementary and explanatory declaration.

"Now if you have examined or have had an opportunity to examine the report of the majority, you will find that their plank on that question consisted simply in a reiteration of the bill of rights preserved to American citizens under the bill of rights and the Constitution. It is splendid language and you applauded when I read it. It is a splendid declaration of those abstract principles upon which our government rests. We have merely applied those abstract principles to a concrete case." (Applause.)

"This is the addition he proposed. 'We condemn political secret societies of all kinds as opposed to the exercise of free government (applause) and contrary to the spirit of the Declaration of Independence and the Constitution of the United States. We pledge the Democratic party to oppose any effort on the part of the Ku Klux Klan or any organization to interfere with the religious liberty or political freedom of any citizen.' (Applause.) Or to limit the civic rights of any citizen or body of citizens, because of religious, birthplace or racial origin."

"Now, is there anybody who is an attendant on this convention as a delegate or an alternate who is so ignorant of what is going on in American life today he does not know that that secret society that we mean lays down as a part of its fundamental principles that no man who is of the Catholic or the Jewish religion, no man who is colored, no man who is not native born is eligible to office? Is there any denial of that?"

Cries of no, no, no. There we say that we pledge the Democratic party to oppose any effort on the part of that organization or any other to interfere with American institutions. (Applause.)

The speaker said that Senator Owen of Oklahoma who had previously on the platform and at that session defended the majority plank, had declared that the only distinction between them was that one side did not want the Klan named in the platform but that the same side was willing to name the Klan in denunciatory addresses before the convention, while he and other minority committeemen wanted to name the Klan in the convention and through the platform all

over these United States as well. Loud cheers greeted this remark.

"I want the gospel of Democracy to be taught alike in Maine and in Texas, in Colorado and in Pennsylvania, wherever the gospel of democracy is preached at all." (Applause.)

A voice: "Attaboy."

Another voice: "That's good."

"If it is unwise to name the Klan, it is unwise to put something in the platform meaning the Klan." (Cries, No, Yes. Cheers and applause.)

There is more in this matter than the mere naming of a secret organization.

There has crept into American life so strong an influence in certain States that United States Senators told me last night that if the Klan was opposed by them, they could not be re-elected to their seats in the Senate. There has crept into the life of the United States an influence so strong that it needs examination, and when we find that influence traversing the principles of religious liberty, traversing the principles of civil liberty, traversing the principles of religious freedom, it is time that some great party, and there is no other but our party to do it, should declare against those things that we all believe in. (Cheers.) If all these people of the United States had the broad tolerance of Senator Owen, if they all possessed the liberal ideas of Colonel Bryan, there would never be any need for any suggestion of this kind in the platform." (Applause.)

"I have in my pocket a card issued by this organization, whose methods, not whose membership, I condemn, with questions written on it: 'Are you a protestant?' 'Are you white?' 'Are you native born?' Well, I'm reasonably white, (laughter) I'm native born; my ancestors lived in the state where I now live for 200 years. (Applause.) I'm a protestant. I am a Knight Templar Mason, so I am eligible to that order if I want to join it. It cannot discriminate against me according to race or color or birthplace."

"But when I find that it does now send out a questionnaire like the one I have in my pocket, I wonder if its leaders, when questionnaires were being sent out in 1917, included those questions when the call to arms was sounded."

ROTARANS SYMPATHIZE WITH BEREAVED MEMBERS

The Mexia Rotary club Thursday submitted a letter of condolence to Mr. and Mrs. R. L. Maddox following the recent loss of their daughter.

Rotarian R. L. (Rube) Maddox and wife, Mexia, Texas.

Dear Rotarians:

The members of the Rotary Club of Mexia, Texas, have heard with sadness of the great sorrow that has come into your home and saddened your lives, in the loss of your precious little one, by the ruthless hand of death. We desire to assure you that we keenly share in the deep grief that has befallen you and offer to you our tenderest condolence as you walk in the shadows of this sore bereavement.

In all kindness and love,

Yours Rotarily,
A. H. Eubanks, President
J. W. Elliott, Secretary.

"And when any society says to me that a man who was born of Jewish parents or of Catholic parentage, who was born in Canada and came here to make his home, who is colored, cannot be eligible to serve his country in civil life, but shall serve it in military life if we need him, I will condemn them everywhere I meet them on the face of God's green earth. (Loud cheers and applause.)

Now—Cooler Breakfasts
Tomorrow's breakfast prepared with tonight's dinner—a QUICK QUAKER delight
Try this new recipe
HERE is the richest, most delightfully cooling of hot weather breakfasts. Made of oats, it's supremely nourishing and invigorating, too.
As you prepare dinner tonight, cook your regular breakfast quantity of QUICK QUAKER (the new Quaker Oats that cooks in three to five minutes).
When done, pour into a pudding mould and let cool. Then place in the refrigerator over night. Cut in medium thick slices and serve at breakfast with fresh or cooked fruits or berries and sugar—float with rich milk or cream.
The combination is delightful. A world noted chef discovered this new way. Just for the joy of it, try it.

Mexia THE FAMOUS Texas

WHAT TEXAS U. GETS IN OIL ROYALTIES

AUSTIN, Texas, July 18.—An accurate statement pertaining to the oil lands of the University of Texas has just been made by Dr. J. A. Udden, of the Bureau of Economic Geology, at the request of Acting President W. S. Sutton.

Dr. Udden states that the sum of \$7,398 has been deposited by the Land Commissioner of Texas, representing royalties on oil produced on the University lands in the Reagan County oil field and it is estimated that the total amount up to the end of July will be about \$8,000. The geological conditions are said to be such that it is impossible to foretell either the possible size of the field or its outline. What seems to be the most trustworthy opinion is that the field will have to be worked out by drilling, and that conjectures ahead of the drill are apt to be unreliable.

"It cannot fail to be harmful," said Dr. Udden, "to spread the opinion that the taxes in the State of Texas even will be lightened by oil royalties from this field. Under present conditions it is certainly premature, and unwise, to formulate any policies for financing the University from such an uncertain source. It is even possible that such royalties coming for a few years during the production of this field might prove to do harm to the University, which should have a steady income independent of the production of oil, cotton, or of beef. No great University can ever build upon a less certain foundation than a steady income that can be figured on for many years ahead. Such was evidently the intention of the wise men who put aside lands for the building of a great University in this State."

Fool Luck Must Have Been with Them

HOUSTON, Texas, July 18.—A Southern Pacific fireman's hunch saved the lives of three occupants of a Ford car who raced a freight train near here. The fireman saw the Ford approaching a railroad crossing and cautioned the engineer to get the train under control. Sure enough, the car tried to cross ahead of the freight, struck a cattle guard and threw the occupants directly on the track. The engineer, with the train under control stopped just in time to keep from hitting the men.

LETTERS From the People

Fairfield, Texas, July 16, 1924.
Editor Mexia Daily News,
Mexia, Texas.

Dear Sir:

Will you be kind enough to mention, as a news item, the fact that the Old Soldiers Reunion of W. L. Moody Camp No. 87, will be held in Fairfield on July 22-23 and 24th, and that the Old Soldiers of Joe Johnson Camp have a special invitation to attend.

Also state that our committee was in Mexia Tuesday and made arrangements with Werners Band to furnish the music for the reunion and with the Mexia Elks Club Orchestra to play our dance music.

We have Congressman L. A. Johnson and the Hon. Rufus Hardy on our program as speakers. Also have a responsible carnival company booked to furnish amusement.

Any courtesies shown or good words spoken will be appreciated by the committee.

Yours truly,
TOM LINDLEY.

JUST BEGINNING

GAINESVILLE, Texas, July 18.—Only freshmen work will be offered at the Junior College here during the 1924-25 term, according to an announcement by Dr. C. R. Johnson, member of the board of trustees of the school. The number of students entering for second year work would be too small, it is believed, to justify a sophomore class until the 1925-26 term.

Mrs. R. F. Lewis accompanied by her daughter, Virginia, and son, Robert, Jr., left Wednesday for a few weeks visit with relatives in Hunt county.

San Antonio Will Put Big Pot in Little Pot

SAN ANTONIO, Texas, July 18.—

Special cars will be operated from outlying points in San Antonio's trade territory to San Antonio, and reduced rates have already been granted by the railroads, from all points in Texas to this city, for Trade Season and Merchants' Institute, August 4-13, 1924, according to announcement today by Mr. Wm. M. Ochse, Chairman of the Trade Extension Department of the San Antonio Chamber of Commerce.

On August 3rd, special cars will leave: Rosenberg via Southern Pacific (GH&SA); Victoria division; Hempstead via Southern Pacific (H&TC); Houston via Southern Pacific (GH&SA); San Fordyce via Gulf Coast Lines (SAU&G); Palestine via I. & G. N.; San Angelo via Santa Fe Lines; with stops at all intermediate points, arriving in San Antonio at convenient hours for the merchants. The schedules as arranged will serve more than 250 towns.

Committees with automobiles have already been designated to meet all incoming and all visiting merchants will be taken directly to the Registration Booth at the Gunter Hotel and assisted in finding comfortable accommodations in close proximity to the wholesale houses and the downtown hotels, where the style shows, business clinics, merchants institutes, luncheons and dinner programs and theatre parties will be held.

Prof. Paul W. Ivey opens Merchants' Institute at a luncheon meeting at the Gunter Hotel, Monday, August 4, talking on the subject of Creative Selling, and discussing the topics under the heading of Knowledge of Merchandise, Building Values, Increasing Sales by Suggestions, and Creating Sales Talks. Prof. Ivey will continue his lectures throughout the week, each day taking up a subject

that is of personal interest to the retailer. Each day's program will be followed by a Business Clinic in which the problems of the Merchandiser will be carefully analyzed, according to Mr. Ochse.

The entire Trade Season Program is built to aid the retail merchant and to give him a more comprehensive idea of the science of modern merchandising as applied to getting the business in the face of aggressive competition. Every effort has been made by the wholesale establishments of San Antonio to have at the disposal of the visiting merchants a complete list of merchandise, and merchants visiting San Antonio will be greatly surprised at the extent of the rapid growth of this City as a distributing center, according to Chamber of Commerce officials.

THERE'S ART IN BOBBING

It's no longer a question of snip, snip and it's off.

Particular women now demand that the hair which remains form a becoming frame for the face and gracefully outlined head.

That's where "art" comes in, for there are as many styles of bobs as there are bobbed haired girls and women. Each one is an individual problem of chin, eyes, nose and mouth.

Then there's the fashionable element—the smart touch which has always associated Paris with women's coiffures—

And the necessity of keeping the hair glossy, fluffy and clean.

All that fastidious women desire will be accomplished by a weekly visit and a small sum well spent at

LET THE CONSTITUTION ALONE

"Let the Constitution alone!" was the essence of the sentiment of the meeting of the American Bar Association, which has just closed its forty-seventh annual convention in Philadelphia, under the presidency of Robert E. Lee Saner of Dallas, Texas.

Mr. Saner noted that in the last Congress there were a hundred proposals to amend the fundamental law of the land, most of them looking towards making of the national government a sort of super-bureaucracy of wholly paternalistic tendency.

It is generally understood and agreed by all of us that the national government, within the laws made and provided and under the Constitution is all powerful. Because the Constitution provides a means by which it may be amended, the national and state legislatures have the right, the power, the ability to amend it. But it should be most carefully noted that because a man may do something is no reason why he must do it, and that there is a social obligation which prevents the exercise of many rights either given or implied by law. No statute compels a man to wear a coat or collar in public, remove his hat in church, or forbids him to paint his house pink with green dragons on it. A sane observance of decency and neighborliness prevents him from doing that which would make others uncomfortable merely because he has a right to do it. That same sane observance of the unwritten rights of us all, must be encouraged to prevent law makers from doing what they have a right to do, merely because they have it.

The Constitution is the underlying force which has made the United States great. We know what it can do, because we know what it has done. We do not know what it may do if repeatedly amended. Neither this nor any statements by the great lawyers of the American Bar Association are intended to mean that the Constitution should never be amended, but only that it should be amended but slowly, and not until the absolute necessity of that amendment is clearly and unequivocally shown to exist. If every Congress passed a hundred amendments to the Constitution, and every year saw those one hundred enactments ratified by three-fourth of the States, the great and fundamental law of this land would lose its character in half a decade. "We, the people of the United States" would then find ourselves living, not under the republic founded and cherished by the forefathers; fought, bled and died for by our patriots, loved and protected by Lincoln, and held up as a god among governments, but under a new, untried and doubtful form of government which, because it could not do better than the constitutional government has done would inevitably do far worse.

"Let the Constitution alone!" might well be coupled with "Honor the flag!" as a basic American cry.

Carl Davis Tells Idaho Folks About Bigness of Texas

The following description of Texas and account of a visit to Idaho of Carl Davis and family recently appeared in The Burely (Idaho) Herald: Carl Davis and family came to Burely a week or so ago on a visit to his relatives. Carl worked at the Davis Merc. for some time when he came to the conclusion Cassia county and Idaho was too small for him so he moved to Mexia, Texas, where there is plenty of room to move around without bumping into a competitor. Carl is running a laundry in Mexia that employs 32 people but he didn't tell us where he got water for use in his wash shop. He may be using crude petroleum.

We were glad to see Carl and family looking so well and prosperous. He certainly don't show signs of mental worry over unpaid bills but looks as if his bank balance was a long way from the "red."

In speaking of that little strip of ground that Mexico gave up and later was absorbed by the United States he gives it a big boost. It makes us people up north feel small.

Listen to what Carl says of his home state:

Texas occupies all the continent of North America except a small part set aside for the United States and Canada. Texas owns the north half of the Rio Grande, the only dusty river in the world, also the only one, with the possible exception of the Trinity, which is navigable for pedestrians and mud cats.

Texas is bound on the north by twenty-five or thirty states and on the east by all the oceans in the world except the Pacific, and on the south by the Gulf of Mexico and South America, and on the west by the Pacific Ocean, the milky way, and the Sideral Universe. If Texas were chopped loose from the rest of the United States and the Panhandle, it would float out into the ocean, for it rests upon a vast subterranean sea of fresh water.

Texas is so big that people in Brownsville call the Dallas people Yankees, and the citizens of El Paso sneer at the citizens of Texarkana as being snobs of the effete east. It is 150 miles further from El Paso to Texarkana than it is from Chicago to New York; Dallas is nearer St. Paul, Minn., than it is to Brownsville, Texas. The United States with Texas left out would look like a three-legged Boston terrier. Chief

occupation of the people of Texas is trying to keep from making all the money in the world. Chief pursuit of the Texans was formerly Mexicans, but it is land buyers, steers and Texas crop records.

Texans are so proud of Texas that they cannot sleep at night. If a Texan's head should be opened, the map of the state would be found on his brain. Unless your front gate is at least eighteen miles from your front door you do not belong to society as constituted in Texas. Mrs. King's gate is 150 miles from her front door and she is thinking of moving her house back so that she won't be annoyed by the passing automobiles. Other Texas landlords have whole mountain ranges and rivers on their ranches. One Texan has forty miles of navigable river on his farm. If the proportion of cultivated land in Texas were the same as Illinois, the Texas crops would equal that of the forty-seven other states combined. Texas has enough land to supply every man, woman and child in the whole world, with a tract of 5x20 feet and have enough left

over for the armies of the world to march around the border abreast. Texas grows enough alfalfa which, if baled and built into a railway, would reach to the pearly gates. If all the hogs in Texas were one hog, he would be able to dig the Panama Canal in three roots. If all the Texas steers were one steer, he could stand with his front feet in the Gulf of Mexico, one hind foot in the Hudson Bay, and with his horns punch holes in the moon, and his tail brush off the mists from the Aurora Borealis.

ROTARIANS ENJOY FINE MEETING AT LUNCHEON AT NOON

The Mexia Rotary club was favored Thursday with one of the best luncheon programs in its history. The meeting was called to order by Vice President I. W. Keys, who served in that capacity, in the absence of Hon. Hardy Eubanks, President, who with Secretary J. W. Elliott was spending the day with the Palestine Rotary club. Mr. Keys introduced the guests, after which he turned the program over to F. P. Huchingson. Mr. Huchingson called upon Miss Frances Bass who attended Rotary International at Toronto, who made a very splendid and highly appreciated report. She was introduced by Albert Berry, delegate from Mexia, who declared that the Canadians could not compare with Texas at all when it came to beautiful women and he further said that Mexia and Corsicana won the prize, according to popular opinion, of all the delegations in this respect. Miss Bass made her report in a most winsome manner and received generous applause.

H. W. Mayo, Kiwanian from Houston, touring this section in the interest of the Safety Campaign of the Southern Pacific Railroad. He made a very practical, common sense and interesting talk, in which he urged Rotarians and all others to cooperate in the Safety First campaign. He said that the United States lost 48,000 lives in the world war and that during the same period 126,000 lives were snuffed out by accidents, 90 per cent of which could have been averted. At the conclusion of his remarks, Fred Karner briefly stated that in his travels of late he had noticed that signs had been placed at railroad crossings by Rotary clubs warning the public against careless driving. He suggested that Mexia Rotary might act along the same line. This suggestion by Mr. Karner and the address of Mr. Mayo were well received.

Hon. Luther Johnson, of Corsicana, Congressman from this district, spoke briefly, extending greetings to the Rotarians. He was informed by Mr. Keys that he would be called upon at an early date to speak before the club with reference to the acts of the last session of Congress. Congressman Johnson signified his willingness to return for such an occasion.

PRIMARY VOTERS

Not more than ten or fewer than three days before the first primary election, a voter expecting to be absent on the day of the election may cast an absent ballot with the County Clerk of the County of his or her residence.

Those desiring to avail themselves of the above law will be properly taken care of by my deputy, Mr. Allen C. Gillespie, at the Prendergast-Smith National Bank, Mexia, Texas.

Yours very truly,
J. L. DAY, County Clerk,
Limestone County.

The Art of Beauty

By B. M. DOUGLAS

Making Up In The Right Light

MOST women have had the experience of having carefully powdered, rouged, lip-sticked, and dressed to their satisfaction at home,—only to discover that the crystal lights of the restaurant, or where ever they found themselves later in the evening have given them a ghastly and unbecoming hue. Instead of the soft flush seen by their rose-tinted boudoir lamp.

Such an occurrence as this can nearly always be averted. If you are going out in the daylight, it is a simple matter to make up by the window,—and then there will be no guess work as to how you will look when you get outside.

Similarly, it may be more flattering to dress by rose-colored lights, but if you are going to be where there are no shaded lamps, the thing to do is to turn out your boudoir lamp and make up by an ordinary overhead light—if you would look well the rest of the evening.

More rouge is needed at night under bright electric lights than in the day time. The shade of

A bit of light on the subject

your rouge will depend largely on your costume, but it is surprising the various effects that may be obtained from one rouge when used with different shades of powder.

In New York now the new Mandarin rouge with its orange tone is equally popular for day and night wear. It is very saucy, very intriguing, and offers a chance for daring evening effects, when the eyebrow pencil and lipstick are skillfully applied. In the daytime, however, a very different effect of natural glow can be given with this same rouge toned down with rachel or a tannish powder like Peaches to harmonize with the skin.

In general one should use a lighter powder in the evening than in the daytime. A woman who likes Peaches or Peaches and Cream powder for daytime out-door wear may find that rachel suits her better for evening, and the blonde with the delicate skin who uses the natural flesh shades may discover that she needs to lighten this to get the effect of delicate transparency "after six."

GIVES SIMPLE REMEDY FOR SEPTIC POISON

The untimely death of the President's son from infection has stirred all of our hearts and, coupled with the country's bereavement, no doubt the feeling is widespread that whatever anyone knows that might save other boys ought to be widely disseminated. For that reason I am sending this word to The News, asking for its publication and requesting other papers throughout the country to copy it.

First of all, permit me to say that I am an old-time physician, having practiced medicine for a number of years. During my incumbency as a doctor I was a member of the County Medical Society and of the Texas State Medical Association. The remedy I am about to suggest is not a patent medicine. It is compounded by one of the greatest chemists the country has ever known—John Uri Lloyd of Cincinnati, Ohio, now professor emeritus of chemistry in a Cincinnati medical college. The following is the prescription: Lloyd's specific tincture of Echinacea, ounces 1; distilled water, enough to make ounces 4.

In all acute infections in adults take one teaspoonful of this mixture every hour. Let the dose be decreased

for children in proper proportions.

The remedy is harmless and is not incompatible with any other medicine. It can be given along with other constitutional remedies and no ill results will ensue. It should be persisted in until the infection subsides. I have witnessed remarkable results from its administration.

Of course, the first thing to do when any infection is discovered is to call the family physician. Many of the fatalities from sepsis are occasioned by delay in calling the physician. In the absence of the physician, however, use this remedy

2,500 Hear Jim Ferguson Speak

A crowd estimated at 2,500 gathered at the Court House in Groesbeck Wednesday afternoon, at which time Jim Ferguson spoke for about two hours in the interest of his race for Governor of Texas. He was cheered to the echo many times during the course of his address in which he presented the issues of the hour as he saw them. The crowd was composed of citizens who gathered from all parts of the county and from adjoining counties, upon whom it is said, a profound impression was made in behalf of his candidacy. With the exception possibly of the Lynch Davidson address in Mexia about two weeks ago, it was the largest political gathering of the year in Limestone County.

I have indicated with absolute confidence. No remedy achieves a perfect result in all cases, but I have not a doubt that this simple prescription will save many a life if the public generally is apprised of it and will use it. The pure tincture is available as a local application if the infected parts can be reached with the medicine.

EASTERN STAR PLANS INTERNATIONAL TEMPLE

WASHINGTON, July 17.—The General Grand Chapter of the Order of the Eastern Star is carrying on a campaign for the purpose of building an International Eastern Star Temple in this city. The sum of \$25,000 was voted from its treasury as a nucleus fund for the building. A committee has been appointed consisting of Past Grand Matrons and Patrons, with John Hammill, Past Worthy Grand Patron of Iowa, as chairman, with power to act.

The Grand Chapter of Florida and Illinois have each voted \$4,000 and the Indiana Grand Chapter contributed \$1,000. The first donation received was from the English speaking chapter in Pekin, China, which sent \$1 per capita.

No Car Like It!

42 horsepower! 50 miles and more an hour—hour after hour—without overheating—without loss of power—without engine repair—without carbon cleaning!

And at the end of a long sustained high speed, your motor will be cooler, will need less water than any similar sized poppet-valve engine;—will need no repair, no tinkering with unseated valves.

This engine's power curve keeps climbing up while the power of a poppet-valve car is dropping off. Furthermore, the Willys-Knight is entirely free from those engine repairs which make up 50% of the upkeep cost of practically all poppet-valve cars. It has no cams—no springs—to get out of order. A car you can keep season after season. Take a ride today.

SAN ANTONIO, Texas, July 18.—Business was mighty poor for a group of "newsies" who were trying to sell their last editions over in the Mexican section of the city. After a brief conference, the boys hit upon a plan. They dashed into a Mexican restaurant, crowded with patrons, crying: "Extra—Revolution in Mexico!" In less time than it takes to tell, the boys were completely sold out and beat a hasty retreat before the buyers found they had been made victims of a salesmanship coup.

LOOKING FOR COWBOYS

ABMARILLO, Texas, July 18.—Hiking through the hot July sunshine might not appeal to everyone but that is what Hinton Parr and Mason Bibb, two youths from Atlanta, Ga., are doing. They stopped two days here in the hopes of seeing some "real cowboys." They are "hoofing" it to Denver and from there will walk on to Los Angeles. They plan to buy a car on the coast and ride back to Atlanta this fall.

Mr. David Murphy and family are spending a two week's vacation in the Davis Mountains in West Texas. They left the early part of this week.

Col. J. Sanford Smith, wife and daughter, Miss Emma Jean, returned Thursday night from a few days stay in Galveston. They made the trip in their car.

Major N. P. Houx, district deputy grand chancellor, Knights of Pythias, paid the lodge at Kossan an official visit Thursday night. He was accompanied on the trip by W. E. McKinney.

GRAND OINTMENT MAKES PIMPLES & BLOTCHES GO

Ever since the introduction in this country of the wonderful Black and White Ointment and Soap, skin specialists say that such troubles as pimples, blotches, bumps, rash, tetters, eczema, "breaking out", etc., are becoming fewer every day.

Wide distribution of Black and White Ointment, and Soap, has made it possible for millions of people to get the benefit of this wonderful, quick effect in clearing disfigured skin and making it smooth and good to look at. Dealers everywhere say they are selling faster than anything of a similar nature they have ever handled, and they attribute this popularity to the low prices at which they are sold, as well as their dependability. The 50c size Ointment contains three times as much as the 25c size.—(Adv.)

SON OF SAN JACINTO SURVIVOR VISITS IN LUBBOCK

"Sure, I'm at home in Lubbock. I'm at home wherever I may be in Texas," declared Hampton Steele, of Thornton, Limestone county, Texas, while visiting at the Avalanche office Saturday afternoon.

Mr. Steele visited Lubbock five years ago and stated that while he knew the town well at that time, it has made such growth that it isn't at all like the same place.

Mr. Steele claims to be the oldest native Texan now in the State, having reached the age of eighty five years. He is a distinguished pioneer who has lived under four flags in the Lone Star State. He was born in 1839, and lived under the Lone Star flag which was in existence from 1836 to 1845. While the Stars and Stripes waved over Texas from 1845 to 1861 he retained his citizenship in the state and lived to see that flag displaced by the Stars and Bars from 1861 to 1866, when again the Stars and Stripes composed the state's flag.

Mr. Steele served the forces of the South as a soldier in the Confederate army.

Mr. Steele is the oldest son of Alphonso Steele, the last survivor of the Battle of San Jacinto who died in 1911 at the age of 94 years and three months.

"I am still a young man, and my greatest ambition is to live to attend the Texas Centennial Celebration which will be appropriately conducted in 1936," Mr. Steele said, pointing out that if this desire is fulfilled and he is in attendance at the celebration he will at that time be 97 years of age.

The pioneer Texan is in the best of health at this time and is one of the most optimistic men of anything like his age to be found anywhere.

Mr. Steele has figured conspicuously in the life of Texas since young manhood and his name is not unfamiliar to the students in Texas history. He was here Saturday from Plainview in company with his daughter and her husband, Mr. and Mrs. W. B. Rogers, of Plainview, to visit another daughter, Miss Ethel Steele, whose home is in Lubbock.

The pioneer is said to be the only man in Texas who had a great grandson in the World War, Walter West, who served with the A. E. F. in France with the famous Rainbow Division, is the grandson and his participation in the engagements overseas proved that he is a worthy descendant of the historic Steele family.

Mr. Steele has 120 members in his family, as follows: 14 children, 53 grandchildren, 50 great grandchildren and three great-great-grandchildren.

He will spend the summer on the plains, dividing his time in visiting his daughters in Lubbock and Plainview.—Lubbock Avalanche.

Homeless Man And Automobile Family

EL PASO, Texas, July 18.—The "homeless man" and the "automobile family" are two of the most serious dangers to the country and the American home today, according to J. B. Rawlings of the Associated Charities here. Rawlings pointed out that 25 years ago, the "homeless man" was the man too old to work. Today he is the boy from 16 to 25 years of age who is seeing the country at the expense of communities, Rawlings said.

Gushers Lose Game to Rangers

Scott Pitches a Good Game With Good Support

By HECK

In a dandy game sprinkled with good plays, bad plays, dumb base running, loafing, cheers and sobs the Gushers were walloped again by McElver & Co. at the ball pen Thursday afternoon, 5-3. There is not a whole lot to tell except that we got beat and that Wild Man Scott was not wild but instead pitched the kind of a game that a pitcher of his caliber is capable of pitching when he gets any help at all from his mates and any breaks at all. Carl Hill pitched a good game—good enough to win most any day when the gang plays ball behind him and in spite of the "riding" the tin-horn sports started when the Rangers got a few base knocks I still say that under ordinary conditions Carl should have had an even break. The Rangers got to Carl for ten blows but their scoring could have been held to fewer runs with fast fielding. The Gushers tallied two in the second when Seely opened the frame with a one base knock to center. Clements took Butler's grounder and threw wild to second, Gaither being barely able to leap high enough to knock the ball down and Ned and Otis both rested safely. Courtney Williamson bluffed a bunt and then shot a single over third which Wren fielded in fast time holding Seely at third. With the sacks loaded Naylor grounded to Scott who threw Ned out at the plate and Banner's fast relay to Anheier snagged Naylor for a twin killing. Leedy hustled a single to center scoring Butler and Williamson. The Rangers came back and rang the bell three times in the third on Wren's single, Clements sacrifice, singles by Anheier and Courtney between which Bedford sandwiched a double over Bryan's head. Two more Rangers counted in the sixth on Gaither's two bagger, Wren's single to right that took a bad hop to Seely, allowing Gaither to tally and Wren to go to second. Clements hit a short single back of second that Bryan handled slowly allowing Wren to leg it over the pan for another tally. Ted Jones' sock over the right field fence gave the Gushers their last tally in the eighth. Another battle with the Rangers is billed at the ball yard this p. m. and it looks like McElver will shoot Dick Whitworth at us and the world knows that Dick is one of the best heavies in this loop. Jeffries is due for the Gushers and Jeff and Dick should get to the mat with a great game.

Superintendent of Public Schools, B. M. Harrison of Childress, Texas, has been a business visitor here for the past few days. Mr. Harrison and Mr. Guy of our city are owners of the Piggly Wiggly store here.

Miss Leona Booth has returned to this city after several days vacation, visiting the cities of Denison, Chickasha and Oklahoma City.

WELL KNOWN GOLF PLAYER IN WACO

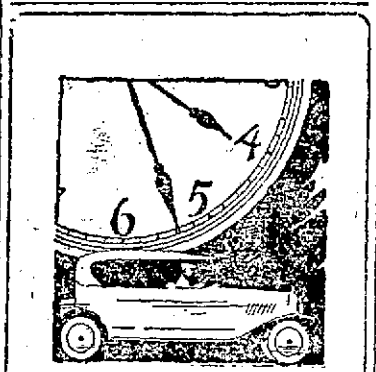

Harry Cooper, professional golf champion, who was in Mexia several weeks ago, where he played an exhibition match on the Mexia golf club links, is now in Waco where he and M. L. Massingill of Fort Worth, will play for the benefit of the Waco Boy Scouts and the Waco Rotary Club.

Press reports assert also that in addition to the match, Cooper will give an exhibition of trick shooting with golf balls, including driving a ball off a watch, and off a man's face, if anyone will volunteer to let his face be the "tee" for the latter stunt.

Massingill and Cooper will oppose each other as members of a foursome which will go 36 holes, 18 in the morning and 18 in the afternoon. Cooper's partner will be Harold Shear of Waco, while Massingill will play with "Doug" Herring of Waco.

Cooper's trick exhibition will be at 2 o'clock.

Tickets to the performance will be \$1 each.

SAN ANTONIO LADY GAINS 20 LBS. TAKING TANLAC

STOMACH AND NERVOUS TROUBLES HAD HER IN BAD FIX

"The makers of Tanlac will always have my heartfelt thanks for Tanlac restored my health and increased my weight 20 pounds a year ago and the good it did me then has lasted to this day," are the appreciative words of Mrs. Irene Rodriguez, 105 W. Mitchell St., San Antonio, Texas.

"Stomach and nerve troubles had clung to me so long it seemed a further waste of time and money to try to get relief. I was never hungry and I suffered so badly from gas and pains in my stomach that I was miserable. I was also subject to chills and fevers, headaches every day and was always extremely nervous. I got so little sleep at night that I felt almost too tired out to move and when I began tak-

ing Tanlac I was so weak it seemed I would have to go to bed to stay. "Some of my friends told me that Tanlac would help me and sure enough, my first bottle made me feel much better. I kept on taking Tanlac and improving steadily and after using five bottles I was perfectly well and happy. Since taking Tanlac, I have been eating and digesting everything and I feel fine and strong every hour of the day. My husband has also used Tanlac and we both think there is nothing like it."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.
